

YOUR JOB POSTINGS SHOULD APPEAR ON ALL PERTINENT PLATFORMS SIMULTANEOUSLY. **THANK YOU THAT ON AVERAGE THIS TAKES EXACTLY 7 SECONDS.**

One tool – countless possibilities. The BeeSite JobHub is the interface for automatic posting distribution. Whether for the intranet, job platforms, or social networks. The BeeSite JobHub provides a high-performing, highly scalable software solution for easy access to job platforms.

BENEFITS

- ✓ Saving time when placing job postings
- ✓ Low error rate thanks to one-time dispatch and automated processes
- ✓ Increasing the reach of your job postings
- ✓ Bundling the sales volume for media bookings

MULTI-POSTING TO PLACE JOB ADS ON JOB PLATFORMS AND SOCIAL NETWORKS.

With just a few clicks you can share your job postings with all relevant external, national, and international job platforms, the German federal employment office, and social networks. You have the liberty to use any format you like in doing so regardless of whether it's text, image, video, contact data, QR-tags, classic HTML or content that has been optimised for mobile use.

AN OVERVIEW OF THE MOST IMPORTANT FEATURES

- Importing job posting data from your existing recruiting or HRM system
- Over 100 job platforms from over 135 countries are pre-configured and available – additional job platforms can always be added
- Postings in social networks like XING, LinkedIn, Twitter, and Facebook
- Interface to the German federal employment office
- Quota administration and cost calculation
- Standard statistics provide information about the effectiveness of the respective channels, including "source tracking" to the greatest extent possible for the respective channel

ADDITIONAL SERVICES

- Conceptualisation and implementation of the layout and content of your job postings
- Optimisation of your job postings on various (mobile) terminals
- Ongoing quality assurance and coordination with job platforms, e.g. if there are questions or changes to the appearance of the postings, corrections to the publication date, or the duration of validity
- Media planning development and optimisation (which job platforms are most suitable for your target groups?)
- Quota administration of media bookings and optimisation of your advertising budget
